

2010 IT Section Workshop

Tuesday, February 2 | Orlando, FL | Walt Disney World Swan & Dolphin Resort

Agenda

7:30 - 8:15 | Breakfast & Welcome

Speaker | Lincoln Mead, Chair, IT Section

8:15 - 9:45 | Choose from one of two sessions

Session 1 | Security Awareness: Staying One Step Ahead of the Bad Guys

A GUIDE FOR bringing cyber security awareness to your organization, large or small. Practical suggestions on what must be done to make sure your bar association is as secure as possible while still providing members the services and benefits they need and want.

Speaker | William H. Dickinson, Director of Technology, Virginia State Bar

Moderator | Mel Reveles, Director Internet & Technology Department, Colorado Bar Association

Session 2 | Consuming Evote Web Services

FOR THOSE INTERESTED in offering an online voting capability at your own web site, this session demonstrates, with step-by-step code samples, how to configure an election framework; set up an election; then consume ElectionsOnline's Evote Web Services into your own web site for real-time integration with your member database and your own personalized look and feel to the ballot pages and election-related emails.

Speaker | David Simms, President, ElectionsOnline

Moderator | Lincoln Mead, IT Administrator, Utah State Bar

9:45 - 9:55 | Break

9:55 - 11:25 | Choose from one of two sessions

Session 3 | Being Prepared for PCI Compliance: Motto for Scouts and IT Departments

IF YOUR BAR accepts credit cards, you need to comply with the Payment Card Industry Data Security Standards (PCI DSS). This session covers what exactly PCI is and why it's recently become such a hot topic for bars; the ramifications of failing to be PCI compliant; and how to get compliant both on the technical front as well as adopting business practices aimed at all bar staff for securing data.

Speaker | Dennis Hanzlik, Director of Consulting, Foundstone, A Division of McAfee

Moderator | David Simms, Web Developer, District of Columbia Bar

2010 IT Section Workshop

Session 4 | Content Management Systems: The Devil is in the Details

CONTENT MANAGEMENT — It's not just for IT anymore. It takes a village to manage a web site these days, and it takes a CMS to manage these villagers. From Joomla to Django, enterprise to open source, and off-the-shelf to DIY, we'll cover a range of tools and approaches available to help you efficiently manage the content of your bar's web site by inviting collaboration from all points in your organization. We'll draw on local and state bars to share their lists of do's and don'ts, as well as their experience in working with outside vendors. Bring your stories and your questions to this panel discussion.

Speakers | Steven Dunn, Director of IT, Illinois State Bar Association; Anna Zanolli, Information Design & Technology Department, Oregon State Bar

Moderator | Erik Mazzone, Director, Center for Practice Management, North Carolina Bar Association

11:30 - 12:30 | Lunch

12:30 - 2:00 | Choose from one of two sessions

Session 5 | Cost-Effective Office Security: Can I Get Fort Knox Security on a Dimestore Budget?

GOING BEYOND LOSS, theft or vandalism, security is being driven home as the lynch pin for business continuation and compliance planning. This program takes apart the typical small office environment and IT systems and looks at cost effective ways to improve security, reliability, and confidence when dealing with a growing threat and regulatory landscape. Technology discussions will focus on intrusion detection, policy monitoring and enforcement tools, asset management and threat evaluation technologies, and data protection services.

Speaker | Lincoln Mead, IT Administration, Utah State Bar

Moderator | Mel Reveles, Director Internet & Technology Department, Colorado Bar Association

Session 6 | Why and How to Deliver Wireless Content

WITH WIRELESS ACCESS to the world wide web now nearly as ubiquitous as the web itself, our bar members will soon expect nearly all the functionality our sites have to offer to be delivered in a wireless-friendly format. From paying dues, to searching member directories, registering for courses and much more, come learn the steps you need to take to deliver wireless content

Speakers | Steven Dunn, Director IT, Illinois State Bar Association; John Hodgkinson, Web Architect, North Carolina Bar Association; David Simms, Web Developer, District of Columbia Bar

Moderator | Erik Mazzone, Director, Center for Practice Management, North Carolina Bar Association

2:10 - 4:00 | Plenary Session: What Every CISO Needs to Know about Managing a Data Breach

Speaker | Randy F. Sabett, Sonnenschein Nath & Rosenthal LLP, Washington, DC

Moderator | Bill Dickinson, Director, IT, Virginia State Bar Association
