

2003 National Online Youth Summit Student *WebBoard* User Information Key

The following guide will help you interpret the *WebBoard* user information that has been assigned to you.

Line	Description	Example
1	Real name	Doe, John
2	Login name	jdoe
3	User name	John D. Central High
4	Password	carrot
5	E-mail address	jdoe@staff.abanet.org

Real name (Doe, John)

This is your first and last name.

Login name (jdoe)

The name that you will type in the "Name" field on the *WebBoard* login page, in order to log in to *WebBoard*. *WebBoard* is case-sensitive, so be sure you type in your login name exactly as it appears in your information. Make sure that your "caps lock" is not on.

User name (John D. Central High)

The name that appears on the screen when you log in, and that which identifies you to other users in the conferences and chat rooms. It is the name that will be attached by *WebBoard* to any topic or reply messages that you post. It is also the name you should use to sign any message you post in *WebBoard*.

Password (carrot)

The name/word that you will type in the "Password" field on the *WebBoard* login page, in order to log in to *WebBoard*. *WebBoard* is case-sensitive, so be sure you type in your password exactly as it appears in your information. Make sure that your "caps lock" is not on.

E-mail address (jdoe@staff.abanet.org)

For registration purposes, *WebBoard* requires each user to have an e-mail address. Because many schools prohibit student e-mail use, we have used your teacher's e-mail address in your profile. Please note that e-mail addresses associated with student profiles will be hidden within *WebBoard*; they will **not** appear with student messages and will not be included any student user information that is accessible by other *WebBoard* users.
