

years. Change is always good, if sometimes painful, and opportunity is everywhere. Information from interaction with other lawyers, the best and the brightest from all over the country, for those are the lawyers attracted to our section (although sometimes they might be considered among the nerdiest), can only make your life more interesting and kept the practice of law refreshing and vibrant. It works, and you will never regret the effort you make to join and get involved. And someday when you are getting on toward retirement like I am, you can give the same counsel to a new generation of young men and women, earnest and energetic, who are privileged to be lawyers. ♦
