

Sales & Use Tax Deskbook Standing Order List

The Sales & Use Tax Deskbook provides in-house tax professionals, attorneys, and accountants—in one source—the information you are most likely to need about sales and use taxes. Each chapter (for the District of Columbia and every state that imposes general sales and use taxes) sets out key principles and positions in that state with citations to the pertinent statutes, regulations, and case law. In addition, the authors have collected and organized all-important interpretive information that frequently must be gleaned from rulings, bulletins, and other local lore (much of which would otherwise be impossible for practitioners in other states to find).

Under this new Standing Order List program, you can receive this essential tax law reference book on 45-day risk-free approval at a **25% discount** off of the list price. You will be billed separately for each edition at the then-current price, plus shipping and handling. If, for any reason, you are not satisfied with any edition, you may return it within 45 days of receipt for a complete refund of the price of the book ... no questions asked!

Keep your library current by signing up for the **Standing Order List**, by completing and submitting the form below.
